THE ULTIMATE VEHICLE SAFETY KIT

By Michael Gravette

The logo for SafeFamilyLife features a blue outline of a house with a chimney on the right side. Below the house, the words "SafeFamilyLife" are written in a blue, serif font. The word "Safe" is in blue, "Family" is in green, and "Life" is in blue.

Nap Alarm

Nap Alarm is an alarm that will wake you up should you fall asleep at the wheel. It is worn over the ear and has an electronic position sensor. When your head nods forward, it sounds a loud alarm to instantly wake you and alert your passengers.

The Nap Alarm is not only designed for drivers, it is also perfect for people who need to be fully alert while on duty, for example, security guards, machine

operators and even students.

1. Place the alarm over your ear before you begin driving or should you begin to feel sleepy
2. Turn the switch to the ON position

If your head nods forward, the alarm will sound and wake you up.

Battery is replaceable (3 AG13, release the screw for replacement)

Auto Emergency Tool

With 4 emergency functions in one, this car emergency tool is very versatile. The super bright flashlight can be used at night in any situation. The blinking emergency light activates automatically upon removal from its base.

If trapped inside a car, use the unit as a hammer to break the window for escape or use the blade to cut the seat belt. A snap on base allows for fast removal in any emergency while the magnetic head keeps the unit handy when working on the car. The housing is water resistant. Easy installation requires no tools.

Installing the batteries:

1. Remove the battery cover, located at the base of the tool
2. Insert two AA batteries, positive end first
3. Replace the battery cover.

Functions

1. **Seat Belt Cutter** – safely located in the slits on two sides of the tool
 - a) If you cannot unbuckle your seatbelt, cut it with either of the blades.
2. **Glass Hammer** – two sharp, metal cones located on both sides of the tool
 - a) Strike the hammer against the glass to shatter the window.
3. **Emergency Signal Light**
 - a) Take the body down from the stand and the RED LED will flash automatically just like an emergency signal. Or you can turn it on by pressing the red button.
4. **Flashlight**
 - a) Press the red button to turn on the flashlight. There are multiple settings: just the emergency light, just the flashlight or the emergency light and flashlight together. Continue pressing the red button until you get to the desired setting.

Installation of the Stand:

a) Flip the bracket over to the back, unclip the pin and rotate downwards. Attach the bracket to the carpet (preferably the floor board) of you car by inserting that pin into the carpet. Locate the pin on the front of the bracket and use your thumb to slide the pin all the way forward, it should be flush with the bracket.

Attach the bracket to the carpet (preferably the floor board) of you car by inserting the pins at the top of the bracket first then use the rotating pin to secure the other end.

Locate the inner pin located on the front of the bracket. It is the pin with the small groove. Push that pin until the end is flush with the bracket, you should have two pins sticking out of the top of the bracket.

Replacement of the Bulb:

- a) Unscrew the top of the flashlight.
- b) Replace bulb (2.4V 360mA bulb) and replace the top of the flashlight.

1/2 oz. Pepper Spray with Visor Clip

This ½ oz Oleoresin Capsicum pepper spray comes with a visor clip so that you can easily store and access it in your car.

Pepper spray has serious effects. It causes pain, inflammation of the eyes, nose and upper respiratory system. It will induce coughing, choking and nausea, as well as dilating the eyes causing temporary blindness. The mucous membranes will swell, making it difficult to breathe, leaving your attacker helpless. Effects will last approximately 45 minutes.

To use this Pepper Spray:

1. Slip auto visor clip on the sun-visor in your vehicle.
2. Place pepper spray canister in visor clip.
3. Make sure you can easily remove it while seated in your vehicle.
4. To fire, hold can in upright position.
5. Turn actuator to remove safety.
6. Point can at attackers face and firmly press actuator button. Immediately drive away and get help.

You will get approximately 6-10 half-second sprays with an effective range of six to eight feet.

Avoid accidental contact with eyes, skin or mucous membranes. If contact is made, flush the affected area with cool water. Do not rub your skin and DO NOT use any creams, salves or soap. After you rinse the skin, move to an area with fresh air. The effects will generally disappear after 45 minutes but call your doctor if the symptoms persist.

The contents are under pressure so DO NOT puncture or incinerate the can. Also, do not store above 120 degrees Fahrenheit.

1/2oz Keychain Pepper Spray with Quick Key Release

This ½ oz Oleoresin Capsicum pepper spray comes on a keychain with a Quick Key Release so you can easily separate it from your keys.

Pepper spray has serious effects. It causes pain, inflammation of the eyes, nose and upper respiratory system. It will induce coughing, choking and nausea, as well as dilating the eyes causing temporary blindness. The mucous membranes will swell, making it difficult to breathe, leaving your attacker helpless. Effects will last approximately 45 minutes.

1. Hold can in upright position.
2. Turn actuator to remove safety.
3. To fire, aim at attacker and firmly press actuator button.
4. After spraying the attacker, immediately run for help.

You will get approximately 6-8 half-second sprays with an effective range of six to eight feet.

Avoid accidental contact with eyes, skin or mucous membranes. If contact is made, flush the affected area with cool water. Do not rub your skin and DO NOT use any creams, salves or soap. After you rinse the skin, move to an area with fresh air. The effects will generally disappear after 45 minutes but call your doctor if the symptoms persist.

The contents are under pressure so DO NOT puncture or incinerate the can. Also, do not store above 120 degrees Fahrenheit.

JB Engine Degreaser Diversion Safe

This is a can of engine degreaser with a safe built inside, where you can hide valuables. It looks just like the real thing and is even weight to fill full.

1. Unscrew the base of the can
2. Store your valuables in the safe.
4. Replace the base.
5. Store for safe hiding.

Mini Flashlight with 9 LEDs

This super bright flashlight is great for any situation where additional light is needed.

Installing the batteries:

1. Remove the battery cover, located at the base of the flashlight
2. Insert three AAA batteries according to the

polarity marks. Batteries snap into the three open compartments.

3. Replace the battery cover.

Turn on the flashlight by pushing the black button on the end of the flashlight. Push the button again to turn off.
